

Ahmed Jamil

Flutter & Full Stack Developer

+92 336 9266340 | ahmedjamil561@gmail.com | GitHub: github.com/

Professional Summary

Results-driven BSSE graduate specializing in Flutter and cross-platform mobile application development. Skilled in building responsive, user-friendly, and scalable mobile applications using Flutter and Dart. Strong understanding of Firebase, REST APIs, state management, authentication, and UI/UX principles. Additional experience with Next.js, NestJS, MERN stack, and full-stack web development. Passionate about continuous learning, problem-solving, and developing real-world software solutions.

Core Technical Skills

Flutter, Dart, Firebase, REST APIs, State Management (Provider, Riverpod, Bloc), Android Development, Git & GitHub, SQLite / MySQL, UI/UX Development

Additional Development Skills

React.js, Next.js, NestJS, Node.js, MongoDB, MERN Stack, Java, XML

Projects

SkillSense AI — AI Interview Preparation Platform

Tech Stack: Next.js, NestJS, MongoDB, AI Integration

- Developed a full-stack AI-powered interview preparation platform as a Final Year Project.
- Built responsive dashboards for candidates and companies using Next.js.
- Developed backend APIs, authentication, and interview management features using NestJS.
- Implemented AI-based interview question generation and evaluation workflows.

ChatApp — Real-Time Messaging Application

Tech Stack: Flutter, Firebase

- Built a real-time chat application with authentication and cloud-based messaging.
- Implemented responsive UI and real-time data synchronization using Firebase.
- Developed chat rooms, user login, and instant messaging functionality.

Weather App — Mobile Weather Application

Tech Stack: Flutter, OpenWeather API

- Developed a Flutter weather application using OpenWeather API.
- Implemented real-time weather forecasting and location-based weather updates.

- Designed responsive and user-friendly mobile interfaces.

NoteApp — Notes Management Application

Tech Stack: Flutter, Local Storage

- Built a note-taking application with create, update, and delete functionality.
- Implemented local data persistence and optimized application performance.

ChatFlow — Android Chat Application

Tech Stack: Java, XML, Android Studio

- Developed a native Android chat application using Java and XML.
- Implemented messaging functionality and Android activity management.

Experience

E-book Content Curator and Developer | WITTSTRECTH, Islamabad | Mar 2024 – May 2024

- Collected and curated content for e-book projects while maintaining quality and consistency.
- Organized and formatted e-books using MS Word to improve readability and presentation.
- Collaborated with team members to refine content and ensure thematic relevance.
- Demonstrated strong communication, organizational, and problem-solving skills.

Education

Bachelor of Science in Software Engineering (BSSE)
PMAS Arid Agriculture University, Rawalpindi
2022 – 2026

Certifications

- Flutter and Dart: Developing iOS, Android, and Mobile Apps – IBM
- Backend Development and API Creation – Packt
